TWIST bike base | FIDLOCK

SKU	3010004316

TWIST bike base | FIDLOCK

Bottle cages are obsolete because of the TWIST bike base. The cageless magnetic technology makes it possible to mount a bottle on even the smallest bike frames. Its tiny and flat shape also makes it fit in nicely with the bike frame without drawing attention to itself.

The magnetic bottle mount is easily attached with two screws to all regular bike mounting threads:

- Fits all standard bottle cage thread inserts
- Weighs only 16 g
- Fits all TWIST modules

Technical Details:

Width: 6.08mm
Height: 106mm
Length: 24.8mm
Material: PA66GF, neodymium, epoxy
Product number: 09603
